Mozilla Firefox (Latest available version)		

- The LearningLab does not support using the **Back** button in the browser to navigate to previously-visited pages. Due to differences in architecture, the **Back** button may work for some pages in some implementations, but this is not by design it's not guaranteed that it will work on any specific page.
- LearningLab does not support multiple browser tabs.
- We recommend that users disable software that blocks pop-ups or ads while logged in to LearningLab. Such software could prevent some menus and controls from functioning properly.
